

## **EXHIBIT 6**

## US Patent 6,831,444 Versus Chrysler Hybrid/Electric Vehicle (2018 Pacifica Hybrid)

### CHRYSLER PACIFICA HYBRID ELECTRIC PAGES AND NOTIFICATIONS

Standard on the Chrysler Pacifica Hybrid, Hybrid Electric Pages provide you with information on your vehicle's power flow and driving history and let you schedule charging times so you're never caught off guard –all using the Uconnect® touchscreen. You can also use the Chrysler Pacifica Hybrid App® to check the vehicle's battery charge, vehicle range and estimated time to full recharge, as well as set the charging schedule, receive charge status updates and locate charging stations.

1. A device comprising:

a battery which supplies power to a communication section which communicates with an information processing apparatus;

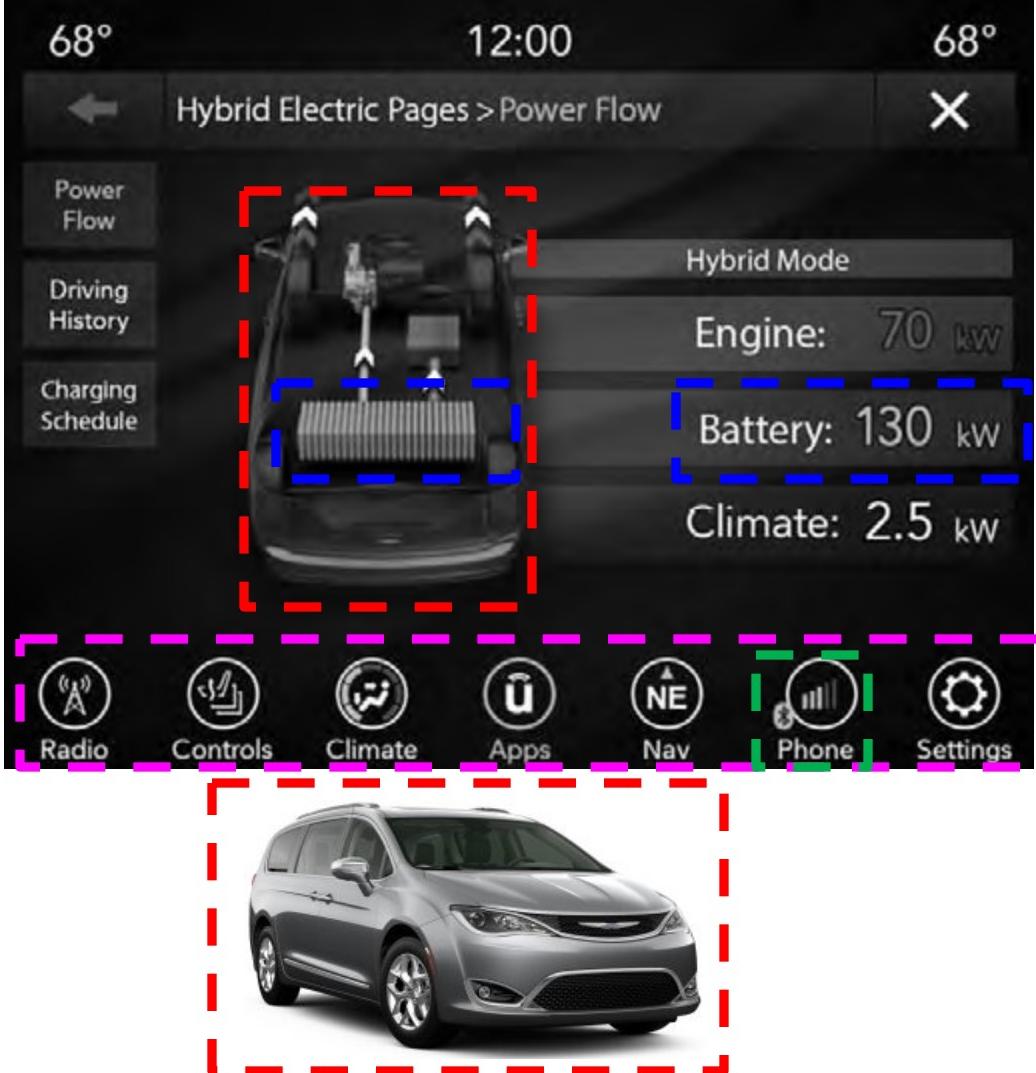

means for receiving, from the information processing, apparatus, a setting information representing at least one of a notifying method for information about remaining energy of said battery, or level of remaining energy of said battery at which a warning is to be displayed on the information processing apparatus; and

means for storing the received setting information; and

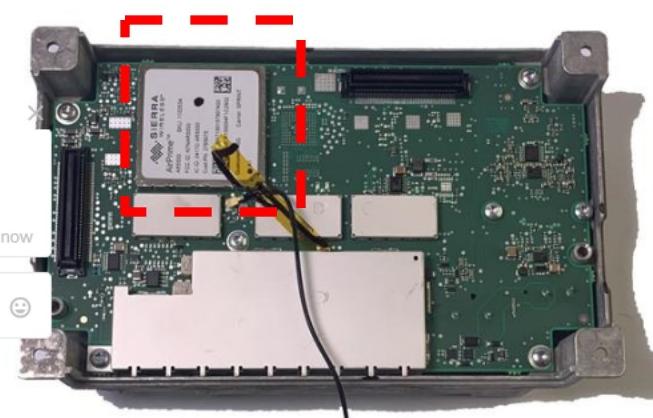

means for detecting a remaining energy of said battery; and

means for transmitting, to the information processing apparatus, information about the remaining energy of said battery on the basis of the received setting information.

*Preliminary Claim Chart Showing Infringement of Claim 1 of the U.S. Patent No. 6,831,444 by Uconnect*

Claim 1	
<p>representing at least one of a notifying method for information about remaining energy of said battery,</p> <p>or level of remaining energy of said battery at which a warning is to be displayed on the information processing apparatus; and</p>	 <p>The screenshot displays the Chrysler Pacifica mobile application interface. At the top, it shows signal strength, time (9:41 AM), battery level (100%), and a green battery icon. Below this is the vehicle name "Chrysler Pacifica". A blue circular icon indicates "VEHICLE DATA LAST REPORTED 1 HR AGO". To the right, it says "10 days ago".</p> <p>The main section is titled "VEHICLE HEALTH REPORT". It shows "IMMEDIATE ACTION" (0 red icons), "SUGGESTED ACTION" (1 yellow icon), and "PASSED SYSTEMS" (10 green icons). Below this is a "FULL HEALTH REPORT" button.</p> <p>Below the health report is a circular "LEVELS AND RANGES" chart. It has a grey outer ring with segments labeled "F" (Full) at the top, "47 mi Total" in the center, and "47mi Hybrid" on the right. The inner ring is divided into two sections: "0mi Electric" (green) on the left and "47mi" (grey) on the right. There are also small icons for fuel and a plug.</p> <p>The bottom section is titled "CHARGE STATUS". It shows a grey power plug icon. Below it, it says "Unplugged" and "Time to 100%". It lists "Level 1" and "Level 2" with their respective times: "13h : 48m" and "02h : 00m". To the right is a progress bar showing a 1% charge level with a green segment and a grey background.</p> <p>At the bottom of the screen are three buttons: "Info" (with a globe icon), "Remote" (with a key icon), and "Location" (with a location pin icon).</p>

<p>means for storing the received setting information; and</p>	<p>Source: <a href="https://www.factoryradioparts.com/products/2013-2014-2015-2016-jeep-grand-cherokee-summit-trailhawk-srt-latitude-ram-1500-2500-3500-4500-5500-uconnect-8-4a-vp3-ra3-na-radio-infotainment-module">https://www.factoryradioparts.com/products/2013-2014-2015-2016-jeep-grand-cherokee-summit-trailhawk-srt-latitude-ram-1500-2500-3500-4500-5500-uconnect-8-4a-vp3-ra3-na-radio-infotainment-module</a></p>  <p>Source: <a href="https://www.prnewswire.com/news-releases/all-new-2017-chrysler-pacifica-hybrid-offers-technology-features-to-help-drivers-maximize-efficiency-300377924.html">https://www.prnewswire.com/news-releases/all-new-2017-chrysler-pacifica-hybrid-offers-technology-features-to-help-drivers-maximize-efficiency-300377924.html</a></p> <p><b>Uconnect Access App</b></p> <p>The Uconnect Access app for the Pacifica Hybrid delivers remote access to the vehicle's sophisticated technology, enabling customers to get the most from their ownership experience and making life simpler along the way. With the click of the app on their smartphone, owners can check the state of charge of their vehicle's battery, along with vehicle range and estimated time to full recharge. They can also get charge status updates, see if their Pacifica Hybrid is plugged in and also schedule when they want it to charge. The Uconnect Access app can display the locations of charging stations and their availability, in real time. As with the Uconnect Access app for other FCA US LLC vehicles, the smartphone app for the Pacifica Hybrid also allows customers to remotely lock and unlock the vehicle, remotely start the vehicle, send destinations to the Uconnect navigation with Send 'n Go, and more.</p>
